N of Stu	6,421	6,473	7,303	8,398	9,003

Comments:

1. Students in the Exclusively Online group tend to be female although the proportion has declined over time while the proportion of male students has increased slightly;
2. Students of both gender in the Exclusively Online Group have more than doubled between 2004 and 2008 while the growth has been much smaller in the overall student population (see table below).

Number of Students	**2004**	**2008**	**% Growth 2004 to 2008**

N of Students	6,421	6,473	7,303	8,398	9,003

Comments:

1. White students represented the largest ethnic group among the Exclusively Online Students, followed by the Other category, by Asian and then Hispanic students.
2. Since 2004, there has been a decline in the proportion of white students taking exclusively online classes, similar to the decline in the general student population.
3. All ethnic groups are represented among the Exclusively Online Students, with African American and Native American students showing higher proportions than in the general student population.
4. The number of students in the Exclusively Online Students more than doubled for all ethnic groups between 2004 and 2008.

N of Stu	6,421	6,473	7,303	8,398	9,003

Comments:

1. Students in the Exclusively Online group tend to be older than students in the total student population;
2. Although students in the 18-20 age group represent close to one-third of the total student population, they represent a far smaller proportion of the students who are Exclusively Online.

Comments:

1. More than half of the Exclusively Online students are at middle and above income level, and over time the proportion has declined, similar to the general student population.
2. The proportion of students whose income level is "Below Poverty" or "Low" has increased in the Exclusively Online group over the five year time period.

N of Students	**4953	6,473	7,303	8,398	9,003

****Data for "Unemployed" and "Not Seeking" categories were not collected from all students until fall 2005 so 2004 total did not include 1,468 students reporting zero hours worked.**

Comments:

1. Although the proportion of students who are employed full time has declined in both the Exclusively Online group and in the general student population, full time students continue to be the largest group of students who are enrolled exclusively online followed by students who are employed half time or more.
2. In contrast, the proportion of unemployed students has increased in both the Exclusively Online group and in the general student population.

Note: the category of Four-Yr Student Meeting 4-Yr Requirements was added beginning Fall 2007 so no prior data are available for comparisons.

Comments:

1. One-third of the Exclusively Online students reported transfer to a 4-year institution as their educational goal while almost another 20% indicated earning a degree or certificate as their goal;
2. Over the five year time period, the largest decline in enrollment among the Exclusively Online students are those whose goals are to acquire or upgrade their job skills. In 2004, one-fourth of the Exclusively Online students reported this goal but only 15 percent indicated a similar goal in 2008. Students reporting job skills as their goal in the general student population also declined but the decline was not as great.
3. Students of all educational goals participate in Exclusively Online enrollment.
