Before we begin...

The Requisition is the initial document in the Purchasing process. This process not only involves Purchasing, but also impacts Receiving, Accounts Payable and Asset Management. The examples that follow are provided with the entire procurement process in mind.

The PeopleSoft Financial System is an enterprise application that has many integrated modules. In order to understand the reasoning behind why we create transactions in the manner we do, it is important to note the relationships that exist between the modules. The following illustration provides a graphical summary of how purchases are managed at Los Rios.

Section 1 - Create a New Requisition

Creating a new requisition is the first step in PeopleSoft Purchasing. There are many different types of purchases made throughout the District. Depending on the type of purchase you are initiating, the requisition attributes play a significant role in how efficiently your request flows through the system. In Section 10 you can find detailed information on specific requisition setup for different types of purchases.

NAVIGATE TO THE REQUISITION MENU

Main Menu >
Purchasing >
Requisitions >
Add/Update Requisitions
Click Add

 Let the Requisition ID default by leaving "NEXT" in the Requisition ID field.

 The Business Unit defaults from your user profile. If you are purchasing with funds from a different Business Unit, make the change here.

 The Lookup icon is used throughout all PeopleSoft applications. You can use this button to look up a list of values for the field immediately to the left.

MAINTAIN REQUISITIONS

Use the lookup icon  to copy the LR template.

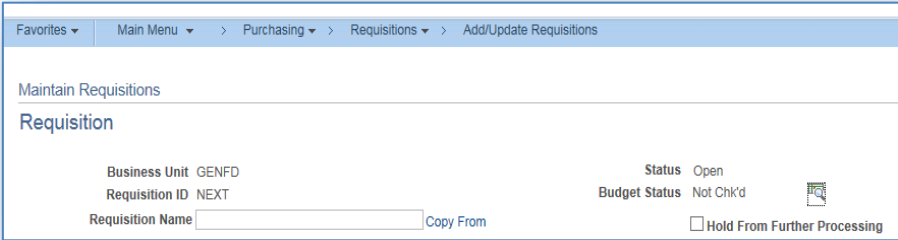

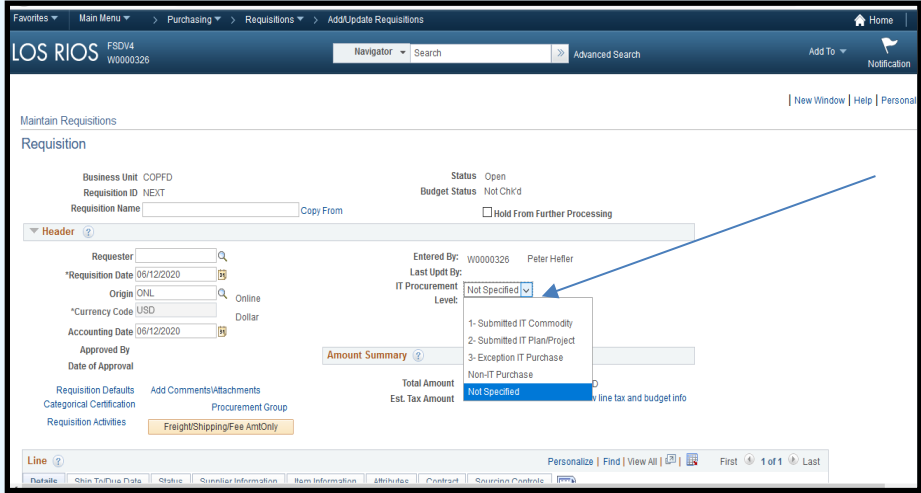

Select the LR_REQ_DEFAULT setting.

Click  twice to get back to the Requisition page.

 The page customization takes effect the next time you open a Requisition.

REQUISITION	
The upper portion of the Requisition page contains general information.	
Business Unit	The Business Unit value defaults from your user setup.
Status	The initial Requisition status is “Open”. Upon approval, the status updates to “Approved”. The Requisition remains “Approved” until the subsequent Purchase Order is complete. The status will then update to “Complete”.
Requisition ID	“NEXT” will be displayed when you initiate the Requisition. The system will assign a Requisition ID when the transaction is saved.
Budget Status	The initial budget status is “Not Checked”. Budget Checking can be run by clicking the  icon. When the process completes, the status will update to either “Valid” or “Error”. There is also a nightly batch process that budget checks requisitions.
Requisition Name	You can give your requisition a meaningful name, which can help locate the transaction later. If the field is left blank, the system will insert the Requisition ID here.
Copy From	To save time on recurring orders, you can copy from a previous requisition. (see page 47)
Hold From Further Processing	Checking this box prevents the requisition from being processed further. A requisition on hold will not be budget checked or sourced to a Purchase Order.

HEADER	
<p>The Header contains values that apply to all Requisition Lines and Distributions</p> <p>Note: IT Procurement Level is new functionality added 7/1/20</p>	
Requester	Enter the ID of the person initiating the order. You can use the lookup  to search.
Entered By	This ID defaults to the person entering the requisition.
Requisition Date	The date defaults to current date.
Origin	This value is defaulted from your user setup.
IT Procurement Level per Information Technology Expenditure Review Process	<p>This is a mandatory field, select one of the options shown in the screenshot above.</p> <p>Non-IT Purchase is for all purchases not IT related.</p> <p>The requestor should provide the IT level with their request to the requisition entry person. For more detailed information select this link: Information Technology Expenditure Review Process to view the process.</p>
Currency Code	The system is setup for US Dollars.
Accounting Date	This field will default to the Requisition Date.
Requisition Defaults	This link opens the Requisition Defaults Page. (see page 10)
Add Comments\Attachments	This link opens the Comments Page. (see page 17)
Categorical Certification	Use this area to record the compliance of expenditures when using categorical funding.
Requisition Activities	This link opens an activities subpage where you can track activities related to the Requisition.

PEOPLESOFT REQUISITIONS

Category: Freight/ Shipping/Fee Amt Only	This will set the attributes for Fees, Freight, and Shipping lines on the requisition.
Total Amount	The total amount of the requisition is displayed upon saving. Estimated tax amount will show directly under total amount.
Pre-Encumbrance Balance	This is the amount of funds pre-encumbered against the budgets on the Requisition. (Displays after the requisition is saved.)
Select Lines to Display	This feature allows you to search for a select group of lines on multi-line requisitions.

Section 2 - Requisition Header Defaults

Setting Requisition Defaults can be done at two different levels. You can set Header Defaults, which apply to all lines and distributions on the Requisition, or you can set Line Defaults, which apply to an individual line. (see page 23)

Buyer

Enter or use  to lookup the Buyer for your location.

Supplier

Enter or use  to lookup the Supplier you would like to use.

Category

Enter or use  to lookup the Category for the items you are requesting.

SETTING REQUISITION HEADER DEFAULTS	
Unit of Measure	Enter or use  to look up the unit of measure that applies to the majority of your line items.
Supplier Location	This value defaults from the supplier ID.
Address Seq Number	Use the magnifying glass  to select the address you would like the purchase order sent to.
Ship To	Select the receiving location where the items should be delivered. <i>If the line items on the order are non-taxable (such as services or software delivered electronically), choose the applicable NOTAX Ship To Location.</i> There are also Ship To Locations set up for Library Book orders and Outreach Centers.
Due Date	Enter the date your items/services are required (this will default out two weeks).
Asset Department	This value is required for items purchased with 64:xx accounts. The Asset Department indicates the area that is <u>paying for the asset</u> , not the location where the asset will be housed.
Originator	Enter the ID of the employee originating the request. This will default from the Requisition Header.
Budget Distributions	<ul style="list-style-type: none"> • Account • Fund • Dept • Program • Class • Project Entering chartfield values here will save data entry on each individual line. You can change the budget on individual Requisition Lines where applicable. (see Requisition Line Defaults page 23)
Location	The Location Code identifies the specific on-site location for the goods or services. <i>It is critical to provide an accurate Location Code for equipment.</i> This Location Code will be used by auditors to locate assets.
Profile ID	A Profile ID is required for asset purchases. The Profile ID identifies the specific type of asset being purchased. This value may be different for a number of items on the same requisition. For instance, a computer will have a Profile ID of COMPU, a monitor will have a Profile ID of COMPMONT and the recycle fee for the monitor will have a Profile ID of COMP:FEES. The different Profile IDs are necessary because different asset types have differing depreciation and tagging rules.

Section 3 – Requisition Lines

Requisition Lines contain the detailed information for the products or services requested. The attributes that you set for each requisition line will dictate how the order flows through the system. Refer to section 10 for examples of how different types of Requisitions should be set up.

LINES	
<p>The Line section of the Requisition contains the detail of the request.</p> <p> The line is where you set the attributes applicable to the item or service that you are requesting.</p>	
<p>Line</p>	<p>Displays the line number.</p>
<p>Description</p>	<p>Enter the description of the item or service requested. <i>Please phrase your description in a manner that will make it easy for the next user to understand what it is you are requesting.</i> A technical description of an item may be perfectly clear to someone familiar with the product. But someone in Purchasing, Accounting or Asset Management may not possess the same level of expertise in the commodity requested. A clear description will help get your order processed more efficiently (see Section 10 for examples).</p>
<p></p>	<p>This Icon displays the entire description for review and editing.</p>
<p>Quantity</p>	<p>Enter the quantity for the line.</p>
<p>UOM</p>	<p>Enter or use  to lookup the Unit of Measure for the line. This value can be defaulted from the Requisition Defaults. (see page 10)</p>
<p>Category</p>	<p>Enter or use  to lookup the Category that applies to the line item. This value can be defaulted from the Requisition Defaults. (see page 10)</p>
<p>Price</p>	<p>Enter the unit price for the line.</p>
<p>Merchandise Amount</p>	<p>The calculated line amount will display upon saving.</p>
<p>Ship To</p>	<p>The Ship To defaults from the Requester setup. This value can also be defaulted from the Requisition Defaults (see page 10).</p>
<p>Supplier Name</p>	<p>The supplier name is displayed here.</p>

LINES	
Amount Only	This checkbox should be flagged for items that may require multiple payments. <i>Blanket Orders are always Amount Only.</i>
	This Icon opens the Line Comments Page. (see page 17)
	This Icon opens the Line Defaults Page. (see page 23)
	These buttons add or delete lines on the requisition.
View Printable Version	The View Printable Version link generates the requisition report and displays it in PDF format. (See Viewing the Completed Requisition, page 31).
Delete Requisition	The Delete Requisition pushbutton is available after save and before successful budget checking. Once the Budget Status is valid, the Requisition can no longer be deleted. (See Canceling a Requisition, page 57)
Save	Saving the Requisition will trigger a few things. The defaults that were set on the Header Defaults will populate to the Requisition Lines, the Merchandise and Total Amounts will calculate, the Delete pushbutton will be visible and a Requisition ID will be assigned.
Notify	The Notify pushbutton allows you to generate an email notification (see page 27).

Section 4 - Comments and Attachments

Comments and Attachments, like defaults, can be added at the Header level. Comments and Attachments on the Header apply to the entire requisition and will print after the line items on the Purchase Order.

COMMENTS AND ATTACHMENTS																			
<p>COMMENTS On the Requisition Header</p> <p>Click on the Add Comments\Attachments link.</p> <p> If a comment or attachment already exists on the Requisition Header, the link will read “Edit Comments” instead of “Add Comments”.</p> <p> Comments entered here will copy to the Purchase Order and print on the Purchase Order following the PO Lines.</p>	<p>Maintain Requisitions Requisition</p> <p>Business Unit GENFD Status Open Requisition ID NEXT Budget Status Not Chk'd Requisition Name _____ Copy From <input type="checkbox"/> Hold From Further Processing</p> <p>▼ Header ?</p> <p>Requester _____ Entered By: W1587829 Paula Gordon *Requisition Date 06/30/2020 Last Updt By: Origin DO District Office IT Procurement Level: 1- Submitted *Currency Code USD Dollar Accounting Date 06/30/2020 Approved By Date of Approval</p> <p>Requisition Defaults Add Comments/Attachments Amount Summary ? Section 5 - Requisition Line Defaults

Requisition Lines can require different attributes. For instance, one line could be for equipment and the remaining lines for supplies, fees, freight, etc. In this case, the equipment line will require an equipment budget and the appropriate Asset Profile ID. Since the majority of the line items are supplies, we can enter the supply budget on the Header Defaults page. This will apply the supply budget and category to all requisition lines. To apply the appropriate budget and Asset Profile ID for the equipment item, we can change the defaults on that Requisition line.

LINE DEFAULTS	
<p>On The Requisition Line</p> <p>Access the Line Defaults by clicking the  icon.</p>	
<p>The Requisition Line Defaults provides access to chartfields, location and Asset Profile ID</p> <p>Click the Copy Header Defaults link to bring in the header default values and then make changes accordingly.</p> <p> Click on the Personalize link to hide the fields you will not need.</p> <p>You will only need to perform this step once. The system will remember your preferences.</p>

SECTION 7 - NOTIFICATIONS

Email notifications can be sent directly from the Maintain Requisitions page. The notification includes a link to the Requisition within PeopleSoft Financials. This notification can provide easy access to users that need to review and/or approve Requisitions.

NOTIFY	
<p>From the Maintain Requisitions Page</p> <p>You can send an email by clicking the Notify pushbutton located on the bottom left of the page.</p>	 <p>The screenshot shows the 'Maintain Requisitions' interface. At the top, there are fields for 'Approved By' and 'Date of Approval', along with an 'Amount Summary' button. Below these are links for 'Requisition Defaults', 'Add Comments', and 'Requisition Activities'. A 'Freight/Shipping/Fee AmtOnly' button is also present. The main area features a table with columns: Line, Description, Quantity, *UOM, Category, Price, and Merchandise Amount. The 'Line' column has a value of '1'. At the bottom left, there are three buttons: 'Save', 'Notify' (highlighted with a red box), and 'Refresh'.</p>
<p>Use the Lookup Recipient link to select email recipients.</p> <p> Email addresses can also be entered manually.</p>	 <p>The screenshot shows the 'Send Notification' dialog box. It has a title bar 'Workflow Notification' and a sub-header 'Send Notification'. Below the header, there is a text area for 'To', 'CC', and 'BCC' fields, and a 'Priority' dropdown menu. The 'Subject' field contains '<Enter Subject here>'. The 'Template' section shows 'Workflow Notification' with 'Priority: %NotificationPriority' and 'Date Sent: 2017-04-07'. The 'Message' field is empty. On the right side, there is a 'Lookup Recipient' link (highlighted with a red box) and a 'Delivery Options' section with a 'RichText' checkbox. At the bottom, there are 'OK', 'Cancel', and 'Apply' buttons.</p>

NOTIFY

Enter the last name of the employee you wish to notify.

Click Search and select the action for the Recipient. (To, CC, Bcc).

Click the Add to Recipient List pushbutton to add the email addresses to the Recipient List below.

Section 10 – Requisitions for Specific Purchases

Different types of Requisitions require different set up to ensure the transaction moves through the PeopleSoft system efficiently. The examples that follow will provide pointers on the attributes and settings needed for different types of purchases. This section covers:

- **Blanket Orders**
- **Equipment Orders**
- **Maintenance Agreements**
- **Prepaid Expenses**
- **Split budgets**
- **Future Dated Requisitions**

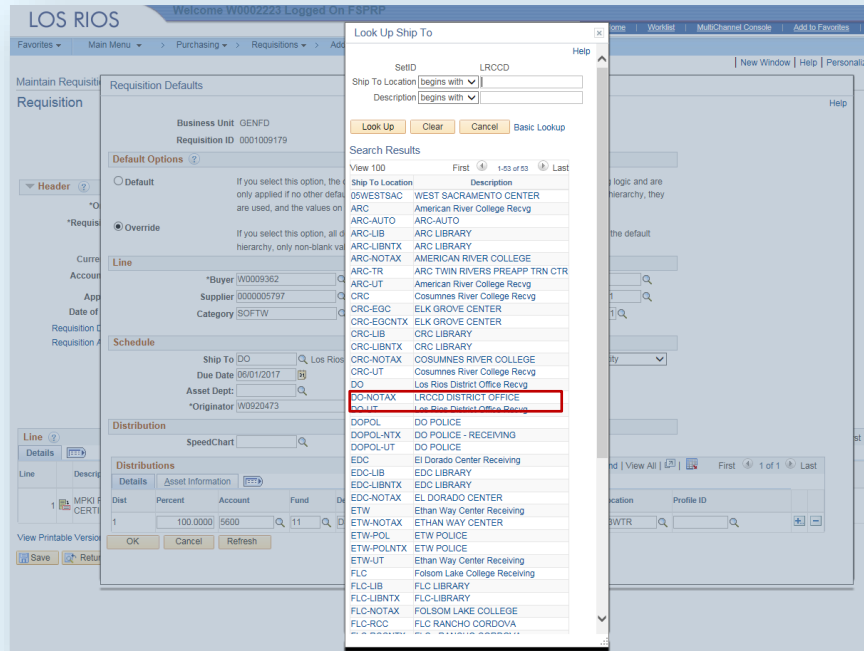

BLANKET ORDER

Ship-To

The Ship-To should always be “NOTAX” for Blanket Orders.

Select the applicable NOTAX ship to location code on the Requisition Defaults page

Blanket Orders are always set up as a flat amount. All charges, including tax and shipping will be deducted from the total as the individual invoices are paid.

Description

Begin your description with the words “Blanket Order”.

The system recognizes the word “Blanket” and notifies Purchasing when the PO is processed. This signals the Buyer to assign a “B” PO number.

Line Attributes

The quantity is always 1 and the price is the maximum amount to be spent during the fiscal year. The line is always “Amount Only.”

BLANKET ORDER

Split Budgets

If you require multiple budgets on a Blanket Order, create separate lines of the requisition.

Begin the description with the Project/Grant number of the budget to be used.

Using a separate line for each budget ensures the appropriate budget gets charged.

Line	Description	Quantity	UOM	Category	Price	Merchandise Amount	Supplier Name	Ship To	Amount Only
1	039E - BLANKET PO FOR PRINTING SERVICES	1.0000	LOT	SERVI	1,000.00000	1,000.00	CARVELL PRINTING	ETW	<input type="checkbox"/>
2	250X - BLANKET PO FOR PRINTING SERVICES	1.0000	LOT	SERVI	2,500.00000	2,500.00	CARVELL PRINTING	ETW	<input type="checkbox"/>

Comments

Enter a comment on the Requisition Header

Include the date the Blanket Order is in effect, the prior year Blanket PO Number and the names of personnel authorized to make purchases using this Blanket Order.

EQUIPMENT ORDERS

Defaults - Location Code

It is very important to be accurate when selecting the location code for equipment. This indicates to auditors where the equipment is located (building and room) during physical inventory.

 The location code can be set on the Requisition Defaults or it can be set on the Line Defaults (see page 24)

Requisition Defaults

Business Unit: GENFD Requisition Date: 02/09/2017
 Requisition ID: 0001009126 Status: Open

Default Options

Default: If you select this option, the default values entered on this page are treated as part of the defaulting logic and are only applied if no other default values are found for each field. If default values already exist in the hierarchy, they are used, and the values on this page are not used.

Override: If you select this option, all default values entered on this page override the default values found in the default hierarchy, only non-blank values are assigned.

Line

Defaults - Profile ID

The profile ID is specific to various assets and is used to determine the useful life for depreciation purposes.

 Different lines on a single requisition may require different Profile IDs. The Profile ID can be set on the Line Defaults for an individual Requisition Line. (see page 24)

 Many of the Profile IDs will default from the Category Code for the Requisition Line.

Requisition Defaults

Business Unit: GENFD Requisition Date: 02/09/2017

EQUIPMENT ORDERS

Description

Enter an obvious description.

A good description will tell anyone reading it what the item is within the first few words.

The Purchasing staff cannot verify the appropriate Category/Profile ID if they are not sure exactly what the item is.

 An obvious description also assists auditors during physical inventory.

Not So Good Description

Asset Tags?

Another reason for the obvious description is determining if the item is taggable?

The Buyer must decide if the item can physically be tagged or if it is a product that cannot feasibly be tagged with an adhesive label.

 If you know it is not practical to place an asset tag on the item you are requesting, please include an explanation in the comments.

MAINTENANCE AGREEMENTS

Recurring (monthly) payments

When entering a Requisition for routine/recurring payments, specific information needs to be included in the description.

- Equipment Serial Number
- Exact cost per month, including taxes
- Term of contract (effective dates)
- Prior Year PO number

Line	Description	Quantity	*UOM	Category	Price	Merchandise Amount	Status
1	SN: 34081. TOSHIBA E-STUDIO 307 FOR FRONT AREA OF SUITE 1200. \$127.49/MO (\$117.50 + \$9.99 TAX)	1.0000	EA	FEES	1,529.88000	1,529.88	Approved
2	SN: 34080. TOSHIBA E-STUDIO 307 FOR BACK AREA OF SUITE 1200. \$127.49/MO (\$117.50 + \$9.99 TAX)	1.0000	EA	FEES	1,529.88000	1,529.88	Approved
3	SN: 34082. TOSHIBA E-STUDIO 307 FOR SUITE 400. \$127.49/MO (\$117.50 + \$9.99 TAX)	1.0000	EA	FEES	1,529.88000	1,529.88	Approved

Begin the description with the Serial Number of the equipment. This assists in matching the invoice to the correct PO line.

Annual Agreements

Include the description of services to be provided and the terms of the agreement. This can be done using the line description and/or the comments.

- ✎ If you are paying up front for one year of service that crosses fiscal years, the current year cost is charged to a regular budget and the future expenses are charged to the 9220 account code. (see prepaid expenses page 42)

PREPAID EXPENSES

Prepaid Expenses

A prepaid expense occurs when a payment must be made in advance of the Fiscal Year that the service/product will be provided in.

 This agreement example begins in April of one year and completes in April of the following Fiscal Year.

PREPAID EXPENSES

Prepaying multi-year agreements

Occasionally you may need to create a requisition that covers multiple years of service. In this case, there should be one line for each Fiscal Year of the agreement.

It is advised that you contact Accounting Operations prior to creating the requisition to ensure the future year payments can be processed without creating a new requisition each year.

SPLIT BUDGETS

NOTE: EQUIPMENT PURCHASES CANNOT HAVE SPLIT BUDGETS

Equipment purchases are processed with a single budget to ensure the transaction processes through to the Fixed Asset System.

For non-equipment items, you can split the cost by percentage, quantity or specific dollar amount.

Percentage Split

On the Requisition Defaults page, you can specify split distributions by percentage. The percentage split will be applied to each line on the requisition.

Requisition Defaults

Business Unit GENFD Requisition Date 04/19/2017
 Requisition ID 0001009165 Status Open

Default Options ?

Default If you select this option, the default values entered on this page are treated as part of the defaulting logic and are only applied if no other default values are found for each field. If default values already exist in the hierarchy, they are used, and the values on this page are not used.

Override If you select this option, all default values entered on this page override the default values found in the default hierarchy, only non-blank values are assigned.

FUTURE DATED REQUISITIONS

Requisitions for next Fiscal Year

In the spring, requisitions may be entered for the next Fiscal Year. The Requisition Date dictates which Fiscal Year the transaction will be charged to. Change the Requisition date to July 1.

If you copy a Requisition from a prior year, be sure to update the descriptions and comments.

Section 11 – Copying Requisitions

You can copy a Requisition using the Copy From link on the header of the Requisition.

COPY A REQUISITION

<p>On the Requisition Header</p> <p>Click on the Copy From link.</p>	 <p>The screenshot shows the 'Maintain Requisitions' interface. Under the 'Requisition' header, there are fields for Business Unit (GENFD), Requisition ID (NEXT), and Requisition Name. A 'Copy From' link is highlighted with a red box. Other fields include Requester, Requisition Date (06/30/2020), Origin (DO), Currency Code (USD), Accounting Date (06/30/2020), and Approved By. An 'Amount Summary' section shows Total Amount (0.00) and Est. Tax Amount (0.000).</p>
<p>Enter whatever information you have for the Requisition you would like to copy and click Search.</p>	 <p>The screenshot shows the 'Copy Requisition' page. The 'Header' section contains fields for Business Unit (GENFD), Requisition ID, Requisition Name, Req Status, Requester (W0023322), Requester Name (Kathy Barnes-Liguori), Requisition Date, Supplier SetID (LRCCD), Supplier ID (0000001353), Item SetID (LRCCD), Item Description, and Department. A 'Search' button is highlighted. Below the form is a table with columns: Sel, Req ID, Requisition Name, Status, Origin, and Requester. The table is currently empty. Buttons for OK, Cancel, and Refresh are at the bottom.</p>

Section 12 – Approving Requisitions

Approving the Requisition is the final step before the document is sourced to a Purchase Order. Only an Authorized Signer, that has appropriate security access, can approve the requisition. Approval can be done by accessing the requisition via a notification link or by searching for the requisition using specific search criteria.

APPROVING REQUISITIONS	
<p>Using the notification link</p> <p>Using the link within the notification email, you can go directly to the requisition without any menu navigation.</p> <p>If you are not logged into PS Financials, the link will first take you to the log in page and then to the requisition.</p>	 <p>The screenshot shows an email notification with the following details:</p> <ul style="list-style-type: none">To: Dobbins, ValerieCc:Subject: Requisition 0001009165 DAKTRONICSWorkflow NotificationPriority: 2-MediumDate Sent: 2017-05-09Sent To: Dobbins,Valerie J./W0002223cc:Please click on the link below to access this transaction: https://fsprpweb.losrios.edu:2443/psprp/EMPLOYEE/ERP/c/REQUISITION_ITEMS.REQUISITIONS.GBL?Page=REQ_FORM&BUSINESS_UNIT=GENFD&REQ_ID=0001009165&Action=UMessage Text: Hello Valerie, This requisition is ready for your review and approval. These are the replacement lamps we discussed.Kathy

APPROVING REQUISITIONS

Search for a Requisition

You can use the Add/Update Requisitions menu to search for a requisition.

Under the Find an Existing Value tab, use a specific Requisition number or enter whatever search criteria you have.

Main Menu > Purchasing > Requisitions > Add/Update Requisitions > Find an Existing Value

You may want to search for a list of open Requisitions by Origin. Select the Requisition you would like to review.

The search by Requisition Status, Origin, and Budget Checking Status provides a list of Requisitions meeting the criteria.

The search criteria can be saved by using the Save Search Criteria link.

You may want to save a search for each Business Unit.

Business Unit	Requisition ID	Requisition Name	Requisition Status	Origin	Requester	Requester Name	Budget Checking Header Status	Hold From Further Processing

Section 13 – Canceling a Requisition

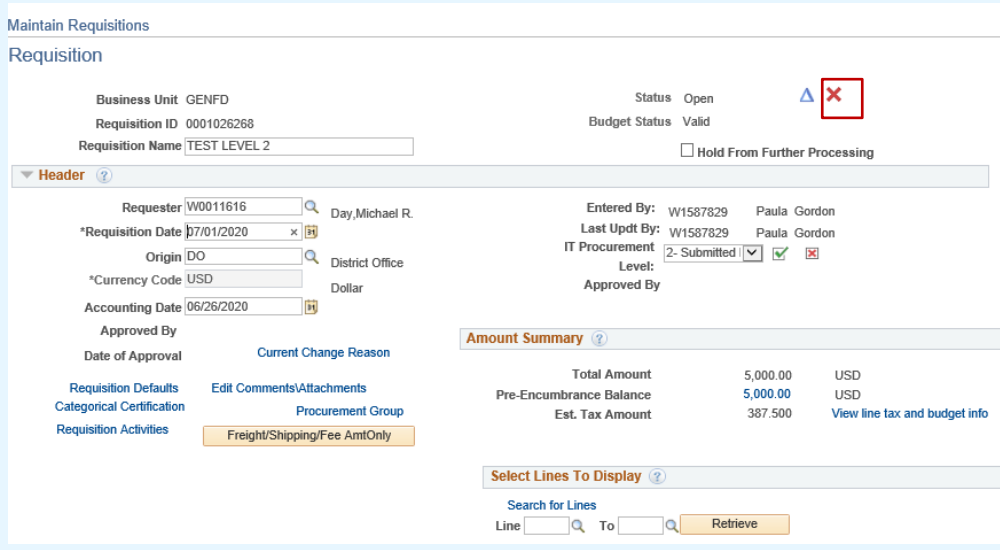

Canceling a Requisition may be required for various reasons. Once the Requisition has been successfully budget checked, it can no longer be deleted so to discard the transaction the Requisition needs to be canceled. Users with the Requisition Entry role can cancel a Requisition if it is still in the Open status. If the Requisition has been approved, the cancellation will need to be processed by an Approver.

CANCELING REQUISITIONS

Cancel the Requisition on the Header

Click the at the top right of the Requisition.

Only Authorized Signers can access approved Requisitions for cancellation.
