14. **TERMINATION:** LRCCD may terminate this agreement and be relieved of the payment of any consideration to CONTRACTOR should CONTRACTOR fail to perform the covenants herein contained at the time and in the manner herein provided. In the event of such termination LRCCD may proceed with the work in any manner deemed proper by LRCCD. The cost to LRCCD shall be deducted from any sum due the CONTRACTOR under this agreement and the balance if any, shall be paid the CONTRACTOR upon demand.

*The Americas and Oceania: Assessing Sustainability* provides extensive coverage of sustainability practices in two regions linked culturally and historically by their relative isolation before the Columbian exchange, by their colonization after it, and by the challenges of pollution, resource overuse, and environmental degradation. Regional experts and international scholars focus on environmental history in areas such as the South Pacific islands, now particularly threatened by rising ocean levels due to climate change, and on countries whose governments and corporations can play a major role in promoting or discouraging sustainable choices: Brazil, an emergent power on the world stage; the United States, the world's third most populous nation after China and India; and New Zealand, seemingly on its way to becoming an enviable model of sustainable development.

Christmas in Beijing

Published on 20 Dec 2012

Would you be able to explain the difference between Jesus and Santa Claus, or the symbolism of different Hanukkah and Christmas foods? These were topics of conversation as Berkshire Publishing hosted its first holiday party in China. Guns and Nature and How They're Linked

Published on 20 Dec 2012

As everyone has no doubt heard by now, we had a tragic shooting at an elementary school not too far from here Friday, 14 December, 2012.
