I have just spoken to a rep from SeeMeCNC

He said there is no Bob working there, when I asked for Bob.

After 15 mins on hold he then proceeded to tell me that they are a small company and it was too much of a hassle and would take too much time (literally his words) etc to fill out this paperwork. He said **we could purchase it from them though Amazon.com for the same price.**

Sooooooooo.. I will cancel this and try to find it on amazon.

Sorry – **mind blown** here atm

Tess,

We need a dozen HoloLenses! ☺ So much cool stuff happening in the VR/AR space.

Here's something for the makerspace:

qty. 1 <https://www.seemecnc.com/collections/3d-printers/products/rostock-max-complete-kit> in kit form  
qty. 1 <https://www.seemecnc.com/collections/parts-accessories/products/boroscillicate-glass-build-plate-310mm> (glass plate for above)

qty. 2 <https://www.seemecnc.com/collections/parts-accessories/products/5mm-standard-nozzle>

They're \$999 everywhere, as far as I know. Amazon has them, if that's easiest. Color = White if possible (to match the other printer).

Thanks!

### Product Description

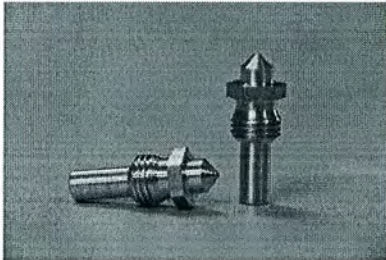

From it's huge build volume to the amazing community of builders you'll quickly learn why so many people have chosen the Rostock MAX v2 as their go-to machine. From first time builders to seasoned enthusiasts it has everything you'll need to get involved in 3D printing. From the lasercut framework to high quality injection molded parts it's built to last too. • Re-designed hot-end platform and Delta arms and mounts for worry free assembly. No Sanding Required! • Lower parts count means faster assembly time • Top mounted spool holder shortens length between EZStruder and spool, and minimizes machine footprint. • New Base enclosures protects your electronics from dirt/dust, and gives your kit a clean, attractive appearance • New Top design provides more rigidity for better prints, and easier assembly and calibration These improvements are added to the already impressive list of standard components and features: • Over 1300 cubic inches of build volume (11" Diameter by over 14 3/4" height) • Made in the USA - high quality, laser cut, injection molded and CNC machined parts manufactured by us • EZ
