SUBJECT: Sole Source Purchase Justification – Imron Corporation

The Imron Card Printer machine is the only known item that will meet the specialized needs of the intended function.

The card printer prints information and bar codes on a blank prox card, then those bar codes are inputted into the Imron system that programs the card, allowing specific access to doors on campus.

Also, the card printer is required from this source to permit standardization.

All four campuses and most of our centers already utilize Imron, to unlock/lock doors on site. The card printer is required to printout prox cards that are later programmed into the imron system.

Thank you.

TO: LRCCD Purchasing Department

FROM: Debbie Turner, Interim Director, Administration Services

SUBJECT: Sole Source Purchase Justification – Imron Corporation

Per bid for the key project. The Imron Card Printer machine which is needed for the key project here at FLC, is not interchangeable with similar parts.

Imron is a security program that are already utilized here on campus, to unlock/lock main doors. The card printer prints out cards that have specific information relating to that specific faculty/classified staff, and is then entered into the Imron system allowing that faculty/staff access to certain areas on campus.

Thank you.
