A Note From Our Founder and CEO:

Hi, I'm Chuck Surack, owner of Sweetwater.
I want to take the time to personally thank you for your
business with Sweetwater. I am so grateful for every customer,
and I encourage you to continue to pursue your love of music.

I want you to know that your satisfaction is our first priority. If
you have any questions or concerns, please do not hesitate to
contact us. 24-hour support is available at Sweetwater.com/
sweetcare, or contact our SweetCare Center by phone at (800)
222-4700 (available Mon-Fri 9AM-6PM, Sat 9AM-5PM). Of
course, you can call your Sales Engineer anytime. If you need
to get in touch with me directly, my email is
chuck_surack@sweetwater.com.

Chuck Surack

Your Sales Engineer Is Ted Hunter:

Next-generation Music Production System

You may decide to ditch your laptop for good after you get your hands on the Akai Professional Force standalone sampler and sequencer. But combined with Ableton Live on your computer, Force becomes one of the most powerful music production systems available. On its own, you have command over powerful sampling capabilities (with real-time time stretching and pitch shifting), looping, four built-in synth engines, clip launching, step sequencing, and even DJ functionality. And Force is also ready to integrate with your favorite hardware, with CV/Gate and MIDI connectivity. Complete with over 10GB of sounds and the ability to import your own samples via USB, SD card, or even a SATA drive, the Akai Force is one of the most comprehensive standalone music production systems ever created.

True standalone sampling and sequencing

Force delivers a comprehensive DAW-like experience, complete with deep sampling and sequencing capabilities from the MPC series. Record your own samples and loops directly via the audio inputs, or import them via USB or SD card. You can even expand Force's capacity with your own SATA drive. Real-time time stretch algorithms and auto bpm detection make syncing samples and loops fast and easy. You can even import multiple stems and sync them to the same bpm for instant mashups. With its highly playable 8 x 8 matrix, its vivid 7" multi-touch screen, and built-in synth engines, the Akai Force is a powerful tool whether you're producing in your studio or performing onstage.

Four built-in synth engines from AIR Music Technology

Within Force are four impressive synth engines developed by AIR Music Technology. They offer deep editing capabilities, giving you access to everything from bass, leads, and plucks to pads, soundscapes, and effects. Play them in real time via the velocity-sensitive pads or an external MIDI controller, if you prefer. Or sequence them with the piano roll. Either way, you can apply the onboard arpeggiator at any time or switch over to Note mode to access intelligent chord, progression, and scale options.

Questions about this product?

Deep integration with Ableton Live

If you're already producing music with Ableton Live DAW software, the Akai Force is the perfect addition to your workflow. Everything you do with Force in standalone mode can be saved as an Ableton Live Set and exported to Live for further production. And because it's compatible with Ableton Link, you can connect Force to your wireless network and sync your project with any Ableton Link–compatible software or hardware, including Akai's MPC series. On top of all that, Force is also a stellar controller for the drums, instruments, and clips within Ableton Live itself.

Akai Professional Force Standalone Sampler/Sequencer Features:

- Standalone sampler/sequencer with Ableton Link compatibility
- 7" multi-touch display for launching clips, manipulating effects, and navigating projects
- 8 x 8 velocity-sensitive pad matrix for playing instruments, launching clips, and more
- Cue mixing and DJing capabilities offer big performance potential
- 360-degree rotary encoders feature OLED feedback
- Integrate with other hardware and modular synthesizers with CV/Gate and MIDI I/O
- Comprehensive sampling capabilities with real-time time stretching and pitch shifting
- 4 built-in synth engines created by AIR Music Technology

- Onboard arpeggiator
- Note modes give access to intelligent chord, progression, and scale options
- Keygroup Tracks allow you to load multi-sampled instruments or create your own from your hardware synths
- Built-in looper
- Over 10GB of sounds included
- Record your own samples directly, or load them via USB, SD card, or SATA drive
- Save your projects as Ableton Live Sets for further production in Ableton Live DAW software (sold separately)
- Deep mixing capabilities, including internal aux sends, master bus processing, and more

Bro WTF!!!

All I can say is WOW!!! I was using Maschine with Pro tools... Work flow is amazing. I'm kicking out 2 to 3 songs daily now. The learning curve is so fun. I love the fact that I can now perform my songs live & still produce as normal. As far as the song mode being missing from this update, I use the track... read more

Loving It

I have used so many different DAWs and controllers in the past and this is great by comparison. I look forward to learning every aspect of this powerful machine. There are so many options and features available. It is easy to get started and get creating right away. Using stock presets is fun but I am really... read more

Description

Description   Product Specifications   Customer Reviews

Akai has designed a remarkable force in music production and DJ performance that will redefine what you should expect in your music gear! Fusing clip sequencing, sampling, synth engines and tactile touch screen control into a standalone, performance-driven device, Force combines must-have moder⁣ ultra-intuitive workflow that harnesses your creativity for maximum expressive capability.

Akai Force Grid Based Music Production System Features

- Standalone - no computer required
- 8x8 clip launch matrix with RGB LEDs
- 7" color Capacitive multitouch display
- Mic / Instrument / Line Inputs, 4 Outputs
- MIDI In / Out / Thru via 1/8" TRS inputs (5-pin din adapters included)
- 4 configurable CV/Gate Outputs to integrate your modular setup
- 8 touch-sensitive knobs with graphical OLED displays
- 16GB of on-board Storage (over 10 gigs of sound content included)
- 2 GB of RAM
- Full-Size SD card Slot
- User-expandable 2.5" SATA drive connector (SATA or HDD)
- 2 USB 3.0 slots for thumb drives or MIDI controllers
- Controller Mode
- **Multi-Touch Display:** The heart of your Force experience. Launch Clips, browse your sounds, edit MIDI data, manipulate samples, apply XYFX, scul⁣ more all from Force's 7-inch full color capacitive multi-touch display
- **Matrix:** Tactile control for an unrestricted creative flow. Trigger scenes/clips, step sequence, finger drum in MPC 16 Pad Mode and play note data ⁣ launch matrix with radiant RGB backlighting
- **Control:** Discover new ways to enhance your performance via 360-degree rotary encoders with OLED feedback – smart assignments and dual ban⁣ time access to all core controls or link to any assignable parameter for a truly customized experience. Capture and playback any changes with real-⁣
- **Command:** Experience total control of your performance. Navigate your project, control clip/scene playback and access critical mix control (mute/⁣ hardware with Force's ergonomically-positioned controls
- **The INS:** Load your samples from either USB Thumb Drives or SD Cards – there's even a dedicated SATA drive bay for internal storage expansion. ⁣ ¼-inch combo inputs, switchable to line/instrument level
- **The Outs:** Route your audio to two stereo ¼-inch outputs, selectable per track within Force's UI. Take control of your modular gear with four indep⁣ unite your peripheral MIDI equipment courtesy of MIDI In/Out/Through ports.
- **Play:** The ultimate side-cart and a solo centerpiece in its own right. Force provides the pinnacle in liberated performance capability that roots your⁣ ultimate performance, whatever your next set demands.
- **Remix:** Seamlessly Import stems, loops and on-shots into Force's 8x8 clip matrix and set playback modes including loop and trigger settings to rem⁣ tracks on the fly.
- **Mashup:** Import multiple stems, then tune and time-stretch your content for immense mash-up potential – all content syncs to your master BPM s⁣
- **DJ:** Seamlessly assign tracks to Force's crossfader, load full tracks, stems or loops to Force's 8x8 matrix - fuse with scene/clip payback for an unrestr⁣
- **XYFX:** Add impressive flair to your sets by harnessing the power of Force's multi-touch display and on-board XYFX. Apply filter, modulation and bea⁣ to individual tracks, select outputs or tracks.
- **Ableton Link Compatible:** Connect Force to your wireless network and sync your project with any Ableton Link compatible application or hardwar⁣ iconic MPC Series
- **Real-Time Time Stretching & Pitch-Shifting:** Never miss a beat, thanks to Force's dual custom real-time time stretch algorithms and auto BPM de⁣ syncing of all audio within your project to your master BPM.
- **Cue Mix:** The perfect drop! Prep your mix with dedicated cue assign controls and a cue mixer for all audio assigned to outputs 3/4
- **Perform:** At the heart of Force is an intuitive clip-centric workflow that forms the creative core of your performance. Combine multiple Modes with⁣ Drum Tracks, Audio Tracks, Keygroup Tracks, MIDI Tracks and CV Tracks to define Clip types, then sculpt Clips via step sequencing, drum pad perfo⁣

PRODUCT DESCRIPTION

1

$1,499.00 USD   Add to Cart

Standalone Sampler/Sequencer with 8x8 Pad Matrix, 4 Synth Engines, 2 Audio Inputs, Stereo Outputs, CV/Gate, MIDI I/O, and Ableton Link Compatibility

Audio Tracks

Capture Audio from the dedicated combo inputs, load / sequence samples from Force's browser or resample from another track.

Drum Tracks

Browse the expansive factory kit library or create your own with samples loaded from USB thumb drives or SD cards. With full MPC Sample Editing functionality fused with 16-Pad or Step-Sequencing performance Modes, it's simple to create your perfect groove.

Plugin Tracks

Hard-coded into the Force Architecture are four premium synth engines, each with full editing capability for immersive sound sculpting potential. Sequence via a traditional piano roll,

apply the onboard Arpeggiator or switch up to Note Mode for instant access to intelligent chord, progression and scale options.

Keygroup Tracks

Load multi-sampled instrument keygroups and playback samples chromatically via a MIDI keyboard or Force's pads. Using the on-board autosampler, create your own keygroups from your outboard synth gear and sound modules for instant recall within your project.

MIDI Tracks

Send your track's MIDI data to an external MIDI device including synths and drum machines. Connect your peripheral studio outboard to Force and sample your gear to an Audio Track.

CV Tracks

Get the most out of your modular rig. With CV tracks send your track's MIDI data to external devices via Force's 4 CV/Gate outputs.

SPECIFICATIONS

Pads

- (64) velocity- and pressure-sensitive pads, RGB-backlit

Knobs

- (8) 360° touch-sensitive Knobs
- (1) 360° encoder for display navigation and selection via push
- (5) 270° knobs for gain, mix & level adjustment

Buttons

- (56) dedicated function buttons; red-, amber-, or green-backlit

Display

- 6.9" / 176 mm (diagonal)
- 5.9" x 3.7" / 150 x 93 mm (width x height)

- Full-color LED-backlit display with touch interface

Connections

- (2) XLR+1/4" (6.35 mm) TRS inputs (Input 1/2)
- (4) 1/4" (6.35 mm) TRS outputs (2 stereo pairs)
- (1) 1/4" (6.35 mm) stereo headphone output
- (1) 1/8" (3.5 mm) MIDI input
- (1) 1/8" (3.5 mm) MIDI output
- (1) 1/8" (3.5 mm) MIDI thru port
- (4) 1/8" (3.5 mm) CV/Gate outputs
- (1) Ethernet link port
- (2) USB Type-A ports
- (1) USB Type-B port
- (1) SD card slot
- (1) power adapter input

Power

- via power adapter: 19 V, 3.42 A, center-positive, included

Dimensions (width x depth x height)

- 13.8" x 15.3" x 2.85"
- 350 x 389 x 72.5 mm

Weight

- 8.53 lbs.
- 3.87 kg
