On "FOB Shipping Point" transactions, should any shipments under this purchase order be received by LRCCD in a damaged condition and any related freight loss and damage claims filed against the carrier or carriers be wholly or partially declined with the inference that damage was the result of the act of the shipper such as inadequate packaging or loading or some inherent defect in the equipment and/or material, CONTRACTOR on request of LRCCD shall at CONTRACTOR's own expense assist LRCCD in establishing carrier liability by supplying evidence that the equipment and/or materials was properly constructed, manufactured, packaged, and secured to withstand normal transportation conditions. 14. **TERMINATION:** LRCCD may terminate this agreement and be relieved of the payment of any consideration to CONTRACTOR should CONTRACTOR fail to perform the covenants herein contained at the time and in the manner herein provided. In the event of such termination LRCCD may proceed with the work in any manner deemed proper by LRCCD. The cost to LRCCD shall be deducted from any sum due the CONTRACTOR under this agreement and the balance if any, shall be paid the CONTRACTOR upon demand.

Re: Sole Source Justification, SwitchDoc Labs

3. The parts/equipment is not interchangeable with similar parts of another manufacturer.

There are no other open source, Raspberry Pi-based, Internet of Things weather and garden monitoring stations with grove connectors available that meet project requirements.

4. This is the only known item or service that will meet the specialized needs of this department or perform the intended function.

Based on extensive research, the only appropriate, affordable and well-supported open source, Raspberry Pi-based, Internet of Things weather and garden monitoring station that meets the needs of the Innovation Center is the SwitchDoc Labs GroveWeatherPi from SwitchDoc Labs. The only vendor for the GroveWeatherPi and associated hardware is SwitchDoc Labs.
