Customer/Order Instructions

TOTAL MAY NOT INCLUDE APPLICABLE SALES TAX

PLEASE NOTE - VENDOR DIRECT ITEM: This item is a special order item that we will requisition from our vendor to ship directly to you. Once the order is placed, we are unable to modify or cancel the order. Lead time for these items may take between 1-4 weeks to arrive. Returns are subject to our published Terms and Conditions policy in our catalog publications or can be found online at https://www.pocketnurse.com/terms_and_conditions_domestic.

IMPORTANT: This does not apply to beds, custom products, med dispense, and Gaumard products.

Line	Qty	U/M	Item #	Description	Price	Per	Extension
0001	2	EA	04-76-6082-REFURB	Cot Ambulance Refurbished 500LB Stryker MX Pro	5,183.00	EA	10,366.00
Item Notes							
The MX-PRO weighs only 84 lbs, yet delivers a 500 lb load capacity. This cot is compact, easily maneuverable, and features eight height positions.							
Pneumatic Backrest: The advanced one-hand pneumatic backrest is a rugged innovation that reduces manual lifting, ensuring superior operator control. The MX-PRO's standard one-hand release assists the operator with lifting the back of a patient to any position, thus ensuring maximum patient comfort.							
Easy-to-Use Release Handle: The easy-to-use release handle requires low force operation and short grip distance, making this cot appropriate for smaller operators.							
Fold Down Side Rails: Fold down side rails are a rugged innovation that require no additional lateral space, providing full operation in confined areas for user convenience. Their low-force operation provides security in the up position and unimpeded access to the litter in the down position.							
Break-Away Head Section: The one-hand break-away head section offers shortest-in-class dimension when folded, maximizing maneuverability in tight areas.							
Floor Mounted Safety Hook: The distinctive floor mounted safety hook design significantly reduces the risk of cot drop incidents and potential operator or patient injury during the loading and unloading process.							
Lift Capable Safety Bar: The lift capable safety bar delivers handling confidence through smart design and rock-solid construction. Dual lift points easily support a full load and accommodate operators of all heights.
